

## iGEM TEC CEM 2016 SURVEY ANALYSIS

### General statistics

	Total answers
Surveys (English + Spanish)	750

Incomplete surveys or those including a country of origin not applicable were deleted from the total data. Data was made homogenous to account for different inconsistencies in the “Country of origin” form, such as “Mexico” and “mexico”.

### Global results

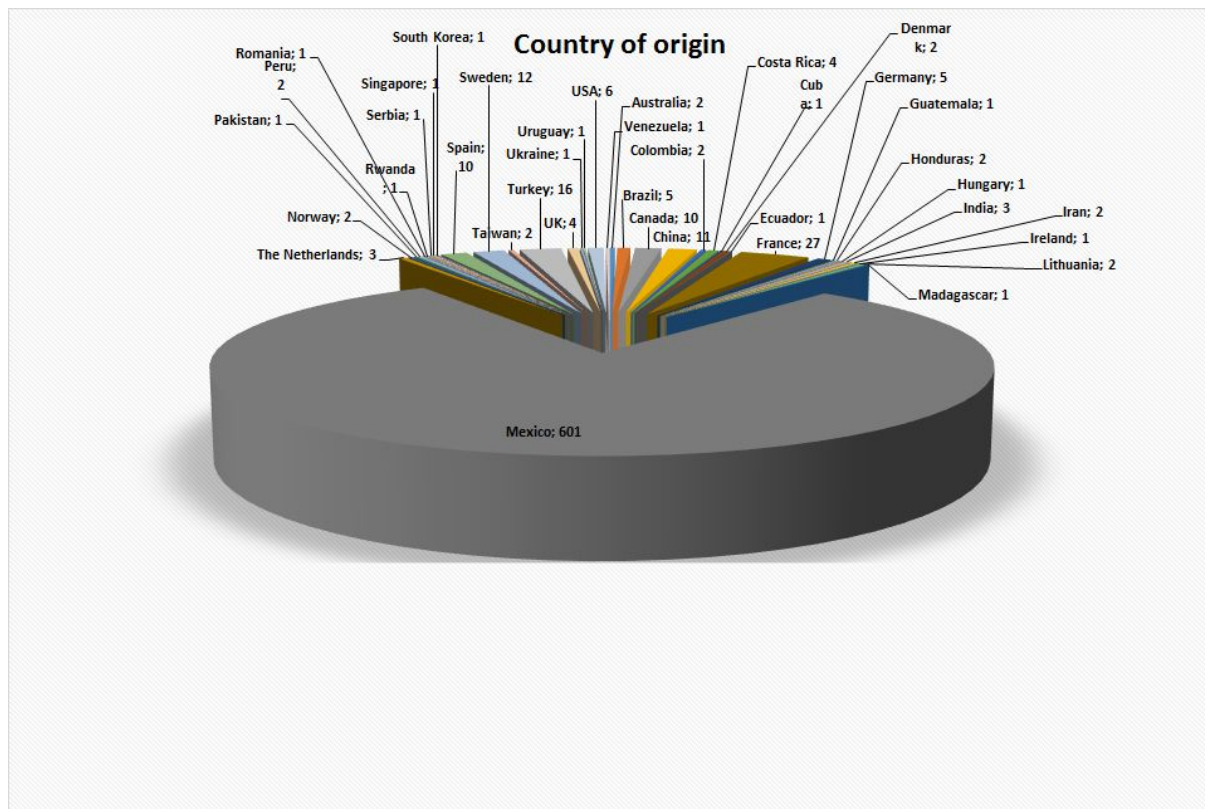

Figure 1. Country of origin.

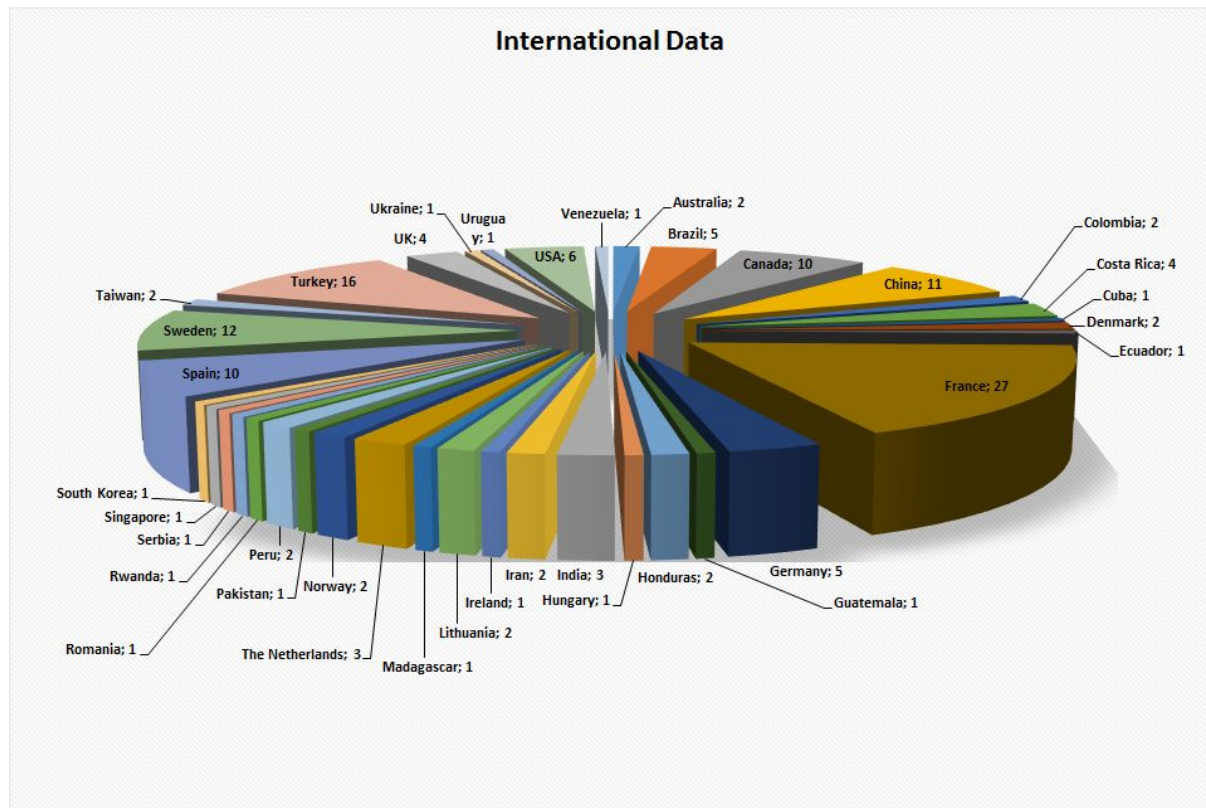

Figure 2. International data of country of origin.

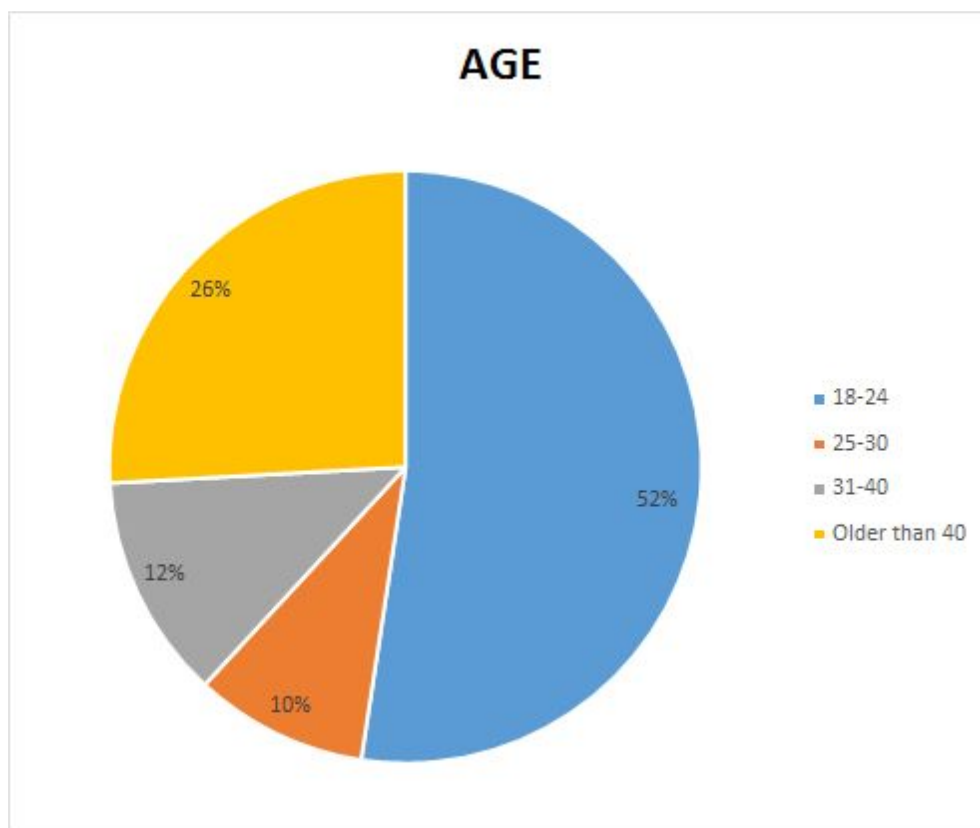

Figure 3. Age of the population that answered the survey.

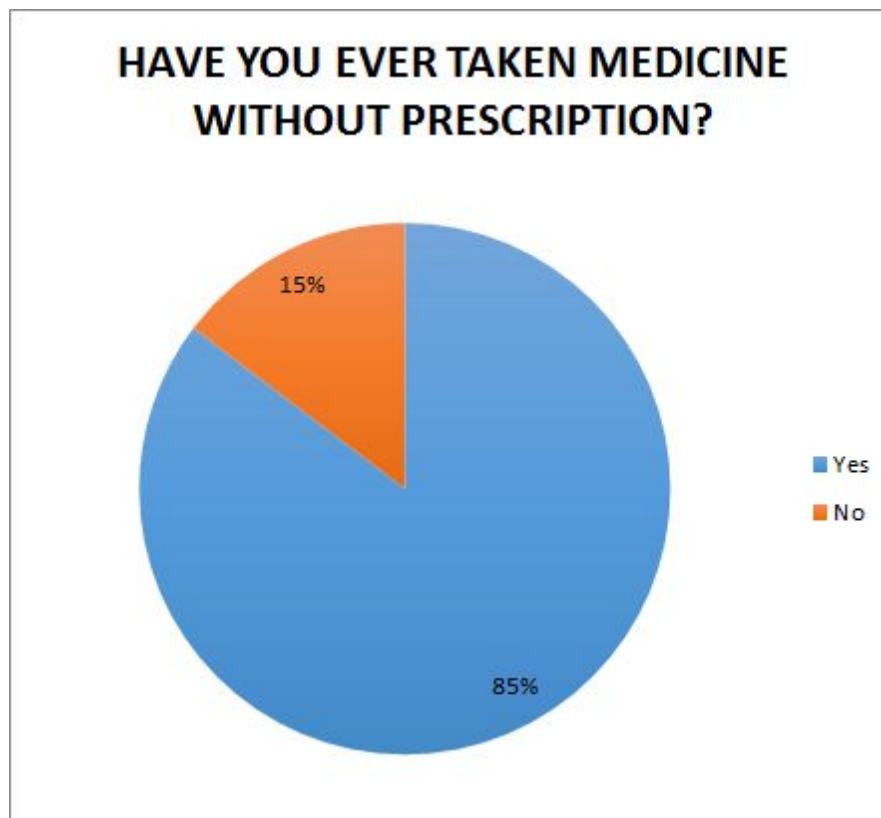

Figure 4. Percentage of people who have taken medicine without prescription
